

## Report Overview

FleetReporting provides you with access to accurate fleet management information when you need it most.

Reports are sent directly to your email, on a regular basis ensuring you have the most up to date information on your fleet.

Reports	Description
<b>Vehicles on Order</b>	Report showing all vehicles on order, dispatched each time a new order is placed or when an anticipated delivery date is updated.
<b>Delivery Report</b>	Report sent whenever a new vehicle is delivered, includes all vehicle and cost centre details.
<b>Fleet List</b>	Monthly report showing all vehicles currently on fleet.
<b>Renewals</b>	A report showing the number of vehicles to be renewed within the next 6 months.
<b>Mileage Analysis</b>	Detailed analysis of current and future mileage projections. Based around last known mileage the report gives a clear indication of whether the vehicles running over or under mileage. Exceptions of 15% over and 15% under are highlighted in red and blue respectively.
<b>Servicing Report</b>	Monthly servicing analysis including last service date and last service mileage.
